

At Ness-Sibley Funeral Home, we are fully committed to the health and safety of the families we serve and our community.

To help address the public health concern of COVID-19, we have instituted specific precautionary measures to help lessen the spread of the virus by:

- Increasing the frequency of deep cleaning our entire facility and vehicles
- Offering expanded arrangement planning options through online, phone, and email while continuing to meet the needs of the families we serve
- Limiting in-person arrangement conferences to the immediate next of kin and two additional family members
- If services are not postponed, they will be limited to immediate family only. In addition to that, only 10 people will be permitted in the funeral home.
- Burial of caskets will take place within 7 days of the date of death.

We will continue to be available to you and our community 24 hours a day. As we serve our families, we will be taking every possible precaution and continue to provide excellent care. Your health, as well as ours is of utmost importance to us as we try to mitigate the effects of this pandemic and limit the amount of disruption to what we know is already an extremely difficult time for families.

Please know these precautions have all been put into place based on the recommendations coming directly to us from the CDC, NYS Health Department, and NYS Bureau of Funeral Directing.

We are taking all of these recommendations very seriously to ensure that we are here to serve you now and in the future.

Thank you for your understanding and support during these challenging times and please do not hesitate to reach out with any questions.
